Sample Letter

Listen and then draw your favourite parts of Ireland 2030.

Paul is 12. He lives in the future.

Here's what he has to say!

Dear Junior–Senior Infants,

Greetings from the future! My name is Paul and I live in the year 2030.

Do you know how many years away that is? That's right – it's 7 years away. Hopefully you will be my age by then.

Let me tell you all about the healthy and happy world I live in! Firstly, there are so many less cars on the road and loads more bicycles. Anybody who does have a car has to plug it in at nighttime to charge it. There is so much less noise and pollution because everyone cycles now and the bus and train services are used a lot more.

Everyone seems happy and healthy too. My friends and I always make sure to include everyone in our games at break time and make sure to visit the old people in our area. They can get lonely sometimes so it's great to be able to make them happy.

We are planting more trees and the earth looks way healthier around us. Every Saturday we do a big litter pick up to keep the animals and plants in our area safe and happy.

The future is fantastic! Before I go, can you help me by drawing your favourite things in the future and tell other people how they can help make Ireland healthier and happier?

Thank you and see you soon.

Paul
